

Diamond & CBN Superabrasive Wheels

11V9

Cup Wheel

This high performance level is also achievable with cup wheels for machining clearance surfaces and face geometries on tungsten carbide and hardened tool materials.

Diameter (D)	Thickness (T)	Bore (H)	Depth (W)	Usable Layer (X)	Angle (V°)
75	30	20, 31.75	3, 5, 10	10	20*
100	35	20, 31.75	3, 5, 10	10	20*
125	40	20, 31.75	3, 5, 10	10	20*

**Dimensions can be altered for the Special tools*
